

ACCRETE DESIGN PLATINUM STAINLESS RANGE

Features:

- 304 and 316 Grade Stainless Steel
- Optional grate designs available - or design one yourself
- Easy clean grates - no clogging of drains
- Removable or Fixed Sediment basket
- Pressed Edge, Crushed Edge and Folded Edge available

At Accrete Design we strive to find the perfect solution for our clients by offering a custom design and make service as not all projects fit an “off-the-shelf” product. To this end we have designed and manufactured a new range of Platinum Stainless Drainage Solutions for wet areas such as bathrooms, poolsides, decking or balcony areas and outdoor water features.

The optional grate designs are a sophisticated statement in any wet area. We have produced an “off-the-shelf” range but do **specialise** in the “custom made” service.

Standard Lengths Available:

- 900 mm
- 1000 mm
- 1200 mm
