

SERIES 2

TWO STAGE LEVEL
THRESHOLD
DRAINAGE SYSTEM

The Accrete Design Level Threshold Drainage System is fast becoming the product of choice when choosing a level threshold system. Why? E2 Compliant

Because of its:

- Ease of Installation (less labour time means less cost)
- Captures stormwater and cladding water
- Manufactured from 316 Stainless Steel
- Grates easily removable for cleaning and maintaining bottom edge of cladding
- Custom made to suit any specification
- Quick lead times from manufacturing to delivery
